12-16 July 2021 | An Online Workshop

SATCON2

Toward the Implementation of Mitigations to Minimize the Impact of Satellite Constellations on Astronomy

Co-chairs:
Jeffrey Hall (Lowell Observatory)
Constance Walker (NSF’s NOIRLab)

noirlab.edu/satcon2

SATCON2 is funded by the NSF and hosted by the NSF’s NOIRLab and the AAS

The background image shows the double star Aldebaran in Cygnus and was taken on 26 December, 2019. Two out of ten 2.5-minute exposures recorded Starlink satellites moving across the field. Credit: Ri Observatory - Schmal Rafael - Zsatic Star Park
