20-23 May 2024 | Tucson, AZ, USA

RARE GEMS in BIG DATA

- NSF NOIRLab is committed to providing a safe environment, free of any form of harassment.
 - Harassment and unprofessional conduct (including the use of offensive language) of any kind is not permitted at any time and should be reported to:
 - Yumi Choi (yumi.choi@noirlab.edu), and/or
 - Knut Olsen (knut.olsen@noirlab.edu), and/or
 - Alexis Abbott (alexus.abbott@noirlab.edu)
 - For confidential conversations, contact
 - Federica Bianco (fbianco@udel.edu)

RARE GEMS in BIG DATA

- NSF NOIRLab is committed to hosting meetings that are open, welcoming, diverse, inclusive, respectful, and healthy experiences for all participants.
 - If the presentation materials say "don't share the results", please respect your colleagues and refrain from sharing.
 - If you feel unsafe at any time, reach out to the organizers at raregems2024@noirlab.edu.
 - If you have any logistical questions, post them in [#helpdesk](#).

RARE GEMS in BIG DATA

- In-person and remote participation (talks)
 - **Slack** is the communication platform for the conference. Please use the session channels for asynchronous Q&A and discussion.
 - For live questions, in-person participants should **speak into the room microphone** so remote participants can hear what is said.
 - In Zoom, the chat feature will be disabled; if remote participants have questions, please **put them in the relevant Slack channel and thread**. They will be read out during the talk, if time permits, or addressed asynchronously by the speakers after the talk.

20-23 May 2024 | Tucson, AZ, USA

RARE GEMS in BIG DATA

- In-person participation (breakouts)
 - We will have **four parallel breakouts** each day Mon-Wed.
 - Session guidelines, docs for prompts and notes, and summary slides are in the Breakouts folder.
 - Add suggested **discussion prompts** to the docs in the Breakouts folder!
 - Breakouts will present **summaries on Thursday**.
